

Request for Information: Compliance GRC Software

About OCHIN

We are known as one of the nation's largest and most successful health information networks, spanning across the U.S. and serving over 4,500 physicians. Our Health IT solutions improve the integration and delivery of health care services across a wide variety of practices—with an emphasis on safety net clinics and small practices as well as critical access and rural hospitals. OCHIN is focused on helping practices use Health IT tools to achieve the core components of care quality improvement that are essential for realizing the Institute for Healthcare Improvement's *Triple Aim* goals:

1. Improving patient experience
2. Enhancing population health
3. Controlling costs.

Our Solutions include:

- **EHR Solutions** - Providing the Health Information Technology tools, software solutions, and implementation expertise necessary to provide quality care and reporting in any setting. These offerings include OCHIN Epic Electronic Health Record Solution and Disaster Recovery.
- **Professional & Knowledge Services** - Offering best practice models in practice management workflow, service implementation, and optimization of current HIT tools in the following areas: Knowledge-Based Consulting, OCHIN Billing Services (OBS), OCHIN Savings Program, Interoperability Assistance (interface and conversion development), Meaningful Use, Onsite Support through Trained Site Specialists, Specialized Reporting, and Compliance.
- **Connectivity** -Bridging the space between health care providers and patients for faster, more integrated care within and outside of the OCHIN community network.
- **Research**- Improving practice efficiency and overall population health through the analysis of real-time clinical and claims data. This area includes both our research department, and the OCHIN Practice-Based Research Network.
- **Business Intelligence**- Using clinical and claims data spanning 18 states—and touching over a million unique patients a year—to aggregate, analyze, and report upon an ever-expanding data set. We don't view our data as our data, it's everyone's data: and if collected, shared, and presented well, this data has the power and ability to truly affect the outcomes we all strive to obtain.

Compliance GRC Software

As OCHIN's Compliance functions continue to grow, OCHIN requests information from vendors on software that can provide an integrated compliance solution for use by OCHIN with the following elements:

- Policy Management System
- Regulatory Tracking and Updates
- Incident Management and Incident Reporting
- Risk Assessment Management
- Auditing and Monitoring Management
- Training Solutions (LMS)

Eligible Participants

This opportunity is open broadly to expressions of interest from United States based organizations. Priority will be given to Oregon-based organizations.

How to Apply:

All interested organizations should fill out the RFI Software Evaluation Matrix and submit their responses and materials describing their GRC solution to compliance@ochin.org. Questions should be directed to compliance@ochin.org.

This RFI is for market research purposes only. Submission of an RFI does not guarantee selection or a request for demonstration. If a vendor(s) is selected in the RFI process, a demonstration(s) will be scheduled for further evaluation of the product(s).

Key Dates: **Updated!**

RFI available: **January 19, 2016**

Deadline for receipt of questions: ~~February 15, 2016 - 5 p.m. PT~~ – **April 8, 2016 - 5 p.m. PT**

Response to all questions: ~~March 1, 2016 - 5 p.m. PT~~ – **April 12, 2016 - 5 p.m. PT**

Deadline for receiving documents: ~~March 15, 2016 - 5 p.m. PT~~ – **April 15, 2016 - 5 p.m. PT**

All submitters notified of next steps: ~~April 1, 2016 - 5 p.m. PT~~ – **April 30, 2016 - 5 p.m. PT**
